Music

- What Are SSHS Music Students Doing with Their Lives?
- How did their RVC Music Education Affect Them?
 - Music Alumni Survey and Concert
- Commencement Level
 - IB Music Year I & Year II
 - IB Music Night, Tri-M Music Honor Society

Alumni Survey Question: What was something about your music classes at SSHS that continues to help you in your life?

- **Anesthesiologist:** Importance of practice and listening to others
- **Advertising:** Breaking things down into smaller, more manageable pieces and building from there.
- **Assistant at Talent Agency:** Breathing exercises from singing warm ups lol! Great for managing anxiety

- **Bachelors in PR:** I just know they shaped me into a more confident person.
- **Government Consultant:** Overall, all my classes helped me find my passion in music and influenced me to prioritize keeping music in my life.

- **Software Engineer/Quantitative Developer:** I've learned to be comfortable with mistakes and use them as a guide towards improvement. If you can avoid making the same mistake twice, you've learned.

- **Social studies teacher:** Organization, being a team player, music making skills.

- **Public health:** the teachers always made it a priority to build students up no matter their ability.

- **Vocal Performance BM, Minor in Performing Arts Management and Entrepreneurship:** My high school courses taught me the skills I needed to get into a University level program as well and helped me understand what I need to do in order to get there.
