- **Keith R. Eckert, Principal**
- **Christopher M. Zappia, Pre-K Coordinator**
- **Alysa Brenner, High School Coordinator**

Summer Pre-K Program Summary

The ***Rockville Centre Summer Pre-K Program*** serves as a wonderful stepping stone for our incoming students as they prepare for their kindergarten experience come September. Our group of nurturing teachers and staff implement a curriculum that focuses on kindergarten readiness skills in the areas of reading and writing, listening and language, number awareness, fine and gross motor development as well as provide opportunities for social and emotional development. Students enjoy time spent on the playgrounds or in the gym playing games focused on cooperation and fair play. In addition to developing lasting friendships, students experience what it means to be a valued member of a school community.

Special Events and Activities

- **Thematic Thursdays:** Students and staff were able to take part in community building days such as “Crazy Hat day”, “Favorite Sports Team Day”, “Pajama Day” etc.
- **Bubble Creation Day:** Students were able to explore the science of bubble making as they learned how to use household ingredients to create a bubble solution. Students had fun making bubbles with their friends.
- **Fire Safety Day:** Students were able to learn about the importance of “Fire Safety” from our very own South Hempstead Fire Department. The students were also able to explore a real fire truck.
- **RVC Public Library:** Students were able to meet some of our local librarians and enjoy engaging read-alouds. Children were able to obtain a library card and use it to take a out a book.
- **Virtual Visitor’s Day:** Students had the opportunity to present to their families via Google Meet, all that they learned during their “Under the Sea” thematic unit. Students proudly displayed their art work, performed songs, and recited poetry about life in the sea for their special visitors.
