

# OUTCOMES

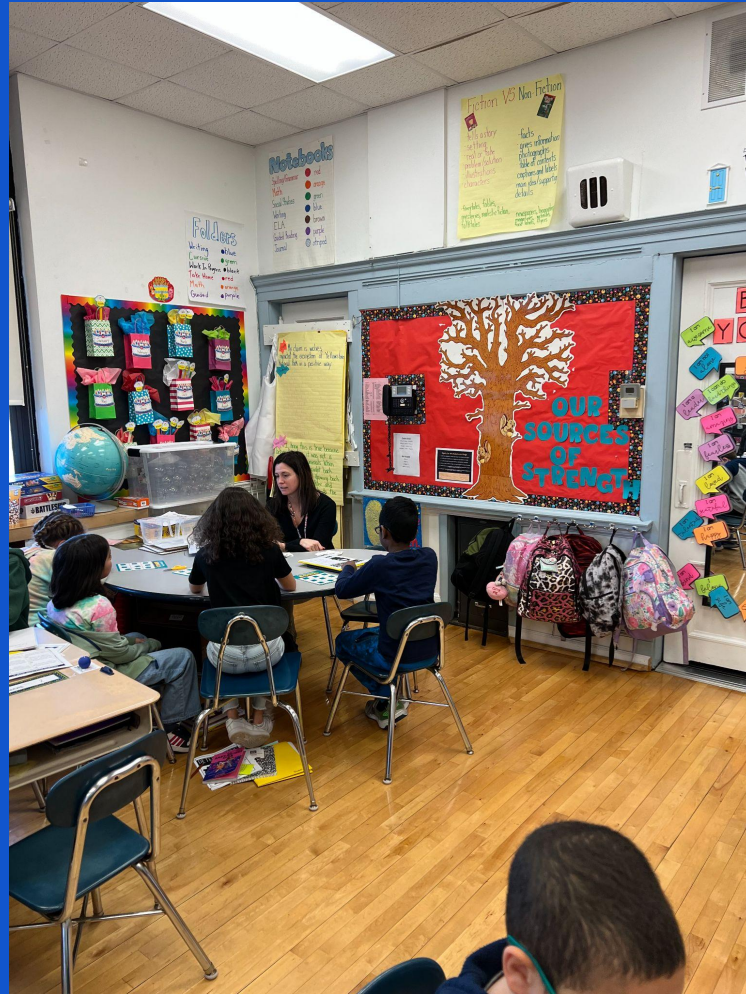

## THE EXPANSION OF INTEGRATED CO-TEACHING

*A collaborative project created by parents, teachers, and administrators.*

WE ARE A TEAM!  
TEACHERS AND  
ADMINISTRATORS

# Elementary ICT Program Achievements

- **Teachers have created an environment of US**

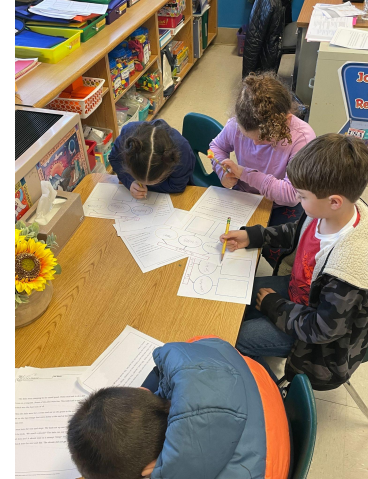

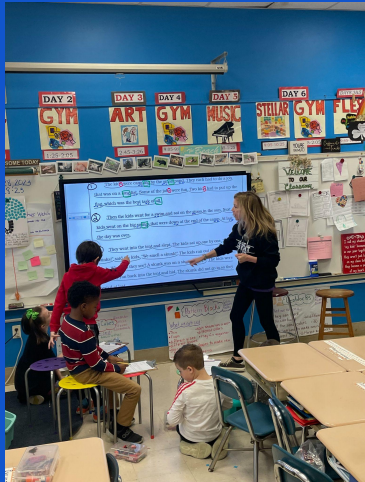

Students identify BOTH the special education and general education teachers as the classroom teachers

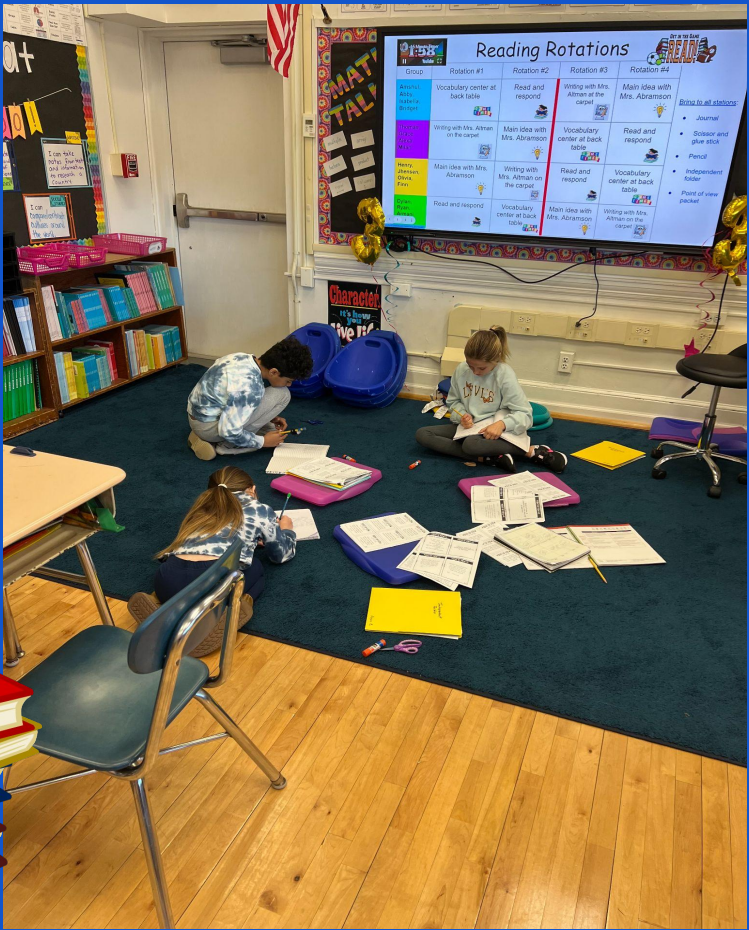

Through training and dedication to their craft, teachers are successfully implementing the models of co-teaching

Instruction is co-planned and delivered to ALL students equitably and is differentiated based on strengths and needs

- **Student Success!!**

Student data shows a high percentage of growth, goal achievement, and maintenance as well as an increase of least restrictive environment with 99% of students maintaining or increasing their LRE

## How Do We Measure Success?

- Observations
- Analysis of goal and performance data
- Parent reflections
- Teacher commentary
- Evidence of student engagement
- Positive impact on general education

BE GREAT  
BE

## Our ICT Program

- We co-plan lessons in consideration of the standards and all student needs and learning styles.
  -
- We create lessons to equally and actively engage with all students.
  -
- We both interact and provide enrichment to all students in the room.
  -
- Demonstration of a TRUE COLLABORATIVE setting where we BOTH as experts are engaged with ALL students.

# AND THE JOURNEY CONTINUES...

2023-2024

ONGOING PROFESSIONAL  
DEVELOPMENT AND COLLABORATION
